

## ATHonors Camp

1. Due to the overwhelming success of our ten Honors Camps this past summer, the Air Force has again approved ten Aerospace & Technology Honors Camps. As with the previous camps, this SecAF initiative will orient selected AFJROTC cadets to aerospace technology educational opportunities and aerospace related careers through a hands-on curriculum including visits to college campuses, air and space operational units, research labs, historical sites, aerospace industries, and provide each cadet with an incentive flight.
2. ATHonors Camp locations: Camp locations and dates are listed below.
